...HELP ENTREPRENEURS GET STARTED!

Des Saveurs et des Ailes is a French association created in 2021 by the NGO **Entrepreneurs du Monde**, which trains and supports people who are far from the job market in their entrepreneurial projects in the restaurant industry in the Lyon metropolitan area.

This programme offers project leaders a 10-week theoretical and practical training course entitled "**Entreprendre en Restauration**" (**Entrepreneurship in Catering**), followed by a period of testing their concept in real conditions at the Des Saveurs et des Ailes business incubator.

With access to the kitchen laboratory and the school food truck, project leaders can test their ideas in complete safety before launching their business.

A SPRINGBOARD FOR CREATION

Supply, kitchen production, customer relations, cashiering: these periods of practical experience in the Des Saveurs et des Ailes food truck allow entrepreneurs to gain **new experience** while being **supported and monitored** by the Des Saveurs et des Ailes team.

FLAVOURS OF THE WORLD

Entrepreneurial chefs invite you to discover their cuisine and their country. It's also an opportunity to sample their recipes for their future projects (catering, food truck, restaurant, etc.). Fast, mobile service: flavours from around the world at your doorstep!
